We are humbly bringing the attention of the respected Government of the United Kingdom ably represented by you over the Special Research and Investigative Report underlined above. The Report was concluded and unveiled on 21<sup>st</sup> May 2023 at international media conference in Enugu in Eastern Nigeria and was widely published by most of the leading media in Nigeria including the Vanguard, Punch, Sun, This Day, the Nation, the Leadership, the Daily Telegraph, the Daily Independent, Guardian, Daily Post, African Examiner, Daily Asset and News Express, News-Band, the Nigeria-Lawyer, the Trent, West African Pilot, the Nigerian Voice and the African Independent Television (AIT) and some international news media. The Report also contained several sections including local, regional and international legal frameworks, lists of victims and state and non state actor perpetrators and the international justice action calls. ## **Calling For International Visa Ban And Other Justice Actions**

**The leadership of the International Society for Civil Liberties and Rule of Law (Intersociety)** is strongly calling for international visa ban and other legal, moral and diplomatic justice actions by the respected Government of the United Kingdom. We also call for an end to butcheries and civilian house burnings in Imo State and apprehension and prosecution of the perpetrators involved; be they armed state actors or armed non state actors and conspiratorial appointed or elected public office holders. The international justice actions under demand will be capable of unmasking those that *killed, abducted, disappeared, arbitrarily arrested and detained and tortured; those that aided, abetted and omitted to act to stop the killings, abductions, disappearances and torture; and those that were killed, abducted, tortured and disappeared. They must also unmask when, where, how and why the killings, abductions, arbitrary arrests and detentions, torture and disappearances. To be identified, too, are the type, location and number of houses and other defenseless civilian properties burned down or destroyed and those responsible for burning or destroying them and why they were burned or destroyed and under whose directives*

## **Why Perpetrators Should Be Slammed With Visa Ban And Tried At ICC**

The leading perpetrators listed in the Page 33 (last page) of this Special Research and Investigative Report and their immediate families shall be placed on visa ban and barred from international entries and participations and awards and other forms of international career, professional and private dealings or exchanges. Specifically, the present Government and Governor of Imo State, identified as having grossly omitted to act and aided and abetted or egregiously and grisly conspired in the mass atrocities shall be slammed with such visa ban and barred from entering the United Kingdom and 28 other Respected International Democracies written to. The Hope Uzodinma Government of Imo State shall further be suspended from receiving the UK international development assistance.

The respected Government of the United Kingdom is also prayed to use its global respectability and influence to get the leading Global Democracies especially the USA, Canada, Australia, UK, EU, France, Germany, North America, South America and credibly democratic South-East Asia (.i.e. South Korea, Taiwan, Japan, Philippines, etc) into toeing the same line including urging them to mount pressure on Nigerian Government to do the needful in full compliance with its regional and international obligations under UN and AU Systems by launching full-scale probes and criminal enquiries on Imo State so as to end the mass atrocities and fish out the perpetrators and have them severely punished in accordance with the international norms, best practices and law. Where the Government of Nigeria remains adamant the respected UK Government and International Democracies called upon, should put consistent and untiring pressure on the International Criminal Court (ICC) to urgently intervene by investigating and prosecuting the perpetrators listed in the page 33 of the Report. More international disciplinary and punitive attention of the UK Government and other international actors called upon should be focused on Gov Hope Uzodinma and the Imo State Commissioners of Justice/Attorneys-Generals and those in charge of Information as well as the Gov's Special Security Advisers since Jan 2021.
